Feb 1, 2016 - Back when I was doing a lot of Mac consulting, one of my go-to tools was Network Utility, a handy app that was always in the Utilities folder.. 27 Free in your Windows PC and Mac OS PingTools Network Utilities is developed by StreamSoft and listed under TOOLS.. Packet loss describes a condition in which data packets appear to be transmitted correctly at one end of a connection, but never arrive at the other.. Type: PING 127 0 0 1 This tells me that TCP/IP is working as well as my Network Card.. We'll start by Pinging the loopback address (127 0 0 1) to verify that TCP/IP is installed and configured correctly on the local computer.. The top 7 tools that I will talk about today include: Ping, Tracert, ARP, Netstat, Nbtstat, NSLookup, and IPconfig.. You use these utilities in Dos and you get there by clicking on Start, going to Run and typing cmd.. Here are the top 7 TCP/IP utilities and their functions Ping The PING utility tests connectivity between two hosts.. Note the IP address of espn com -- 199 181 132 250 You can also ping this address and get the same result. 773a7aa168 [whats the best mac for high end recording studio](#)
